

## Chimp and Man Common Ancestor

1. Does the mathematics behind a chimp/human common ancestor work? \_\_\_\_\_
  2. What were Neanderthals?  
\_\_\_\_\_  
\_\_\_\_\_
  3. Are bones a good evidence to make definitive conclusions?  
\_\_\_\_\_  
\_\_\_\_\_
  4. Do different people groups today have varying bone and skull shapes and sizes? If so, which people groups are more or less evolved?  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
  5. Is the 98% similar DNA of chimp and human accurate? Why?  
\_\_\_\_\_
  6. Evolutionist assume similar genomes as proof of evolution while creationist view it has a common \_\_\_\_\_.
  7. Aside from the scientific evidence, how do we know we didn't evolve from apes? Because God told us in Genesis 1:26-27. For more, read article at - <http://creation.com/made-in-the-image-of-god>
